

The Only Blood Bank Vendor with an Epic® Global Cooperation Agreement

SafeTrace Tx® Software

Trusted by Epic® hospitals for transfusion management

Designed by experienced blood bankers to address the complexities of transfusion service operations, SafeTrace Tx software is built to:

- **Support patient safety:** Multi-layered checks help ensure patient product compatibility, while the always visible Patient-At-A-Glance Bar® toolbar consolidates key patient information and requirements.
- **Simplify multisite management:** Maintain a unified patient history across all locations, reducing duplicate testing and data sprawl while helping to save time and money.
- **Boost workflow efficiency:** Guide users through each step with blood bank-centric workflows to support enhanced productivity.

Optimized for Epic's Foundation System and offered at preferred pricing to Epic's network of hospitals.

SafeTrace Tx is the transfusion management system of choice for hundreds of hospitals, including six of the top-ranked institutions in the U.S.¹

¹ According to U.S. News & World Report: Best Hospitals 2024-2025 Honor Roll

Migrating to Epic? Why SafeTrace Tx[®] software is your best choice.

▪ Epic global cooperation agreement

Co-located in hundreds of hospitals, our collaboration with Epic is backed by more than a decade of experience working together.

▪ Implementation Playbook

Together, Haemonetics and Epic developed an Implementation Playbook that aligns project plans, describes integration best practices, and optimizes intersystem workflows for smooth implementations.

▪ BloodTrack[®] software integration

The combined power of SafeTrace Tx and BloodTrack software extends transfusion safety from the blood bank to the bedside.

▪ Managed cloud hosting

Our comprehensive solution, backed by a robust SLA, is designed to enhance the security and reliability of your SafeTrace Tx software.

From patient registration to transfusion administration, seamlessly exchange clinical communications and keep data in sync.

Comprehensive support beyond the technology

At Haemonetics, we believe that investing in technology is just the beginning. From implementation to support, our experienced team, staffed by blood bank experts, provides value beyond the software. We offer a comprehensive suite of programs, resources and services needed to maximize the value of your investment and support your hospital every step of the way.

Choose the only blood bank vendor with an Epic global cooperation agreement.
