Value Beyond Technology

Contact Information

For more than 50 years,

Haemonetics has been a passionate advocate helping clinical and lab teams implement products and programs that help reduce the risk, complications and costs associated with blood product transfusions.

The market and clinical applications for viscoelastic hemostasis assessment were pioneered by Haemonetics, and we continue to invest in clinical research and technology to advance the science of hemostasis management. We deliver these capabilities with experienced clinical and other support teams that can help you establish a standardized approach to better hemostasis management for better patient care.

A legacy of innovation,

a vision and passion for what's possible

TEG® 3000 Analyzer launched

TEG® 5000 Analyzer and new reagent options launched

TEG® 5000 results interface to TEG Manager® software released

TEG® 6s FDA 510(k) cleared for use in adult trauma settings

PlateletMapping® ADP & AA Cartridge released

HAEMONETICS®

Delivering unsurpassed value

beyond the technology

Comprehensive, coordinated and efficient processes and tools to help ensure seamless system integration.

- Implementation Project Management
- On-site Operator Training
- System and Assay Validation Support
- IQCP Development Guide
- Policy and Procedure Development
- CPT Coding Guide
- On-site Clinical Go-live Support

bey

Market leading clinical education and support to optimize learning and clinical application.

- Experienced, dedicated Clinical Specialists
- College of TEG® Self-guided Online Clinical Training Modules
- Clinical Quick Reference Guides (QRGs)
- Interpretation Guidance Software Module
- TEG® Education App
- DocMatter Peer Collaboration Forum
- Clinician Expert Education Programs
- Medical Affairs Department

Clinical Education &
